

ISA100 Wireless Excellence In Automation Award: Guidance

Overview

The ISA100 Wireless Compliance Institute's ISA100 Wireless Excellence In Automation Award is presented each year to an **end user company** that has demonstrated outstanding leadership and innovation in the use of ISA100 Wireless technology.

Previous award recipients include ALCOA (2017), Phillips 66 (2016), Petronas (2015), Nippon Steel (2014), and RasGas (2013). The first award was presented in 2013.

This award was created by the ISA100 Wireless Compliance Institute to promote the application and use of ISA100 Wireless technology. It is intended to highlight the use of the technology rather than any specific supplier.

What type of application can be nominated?

Any application, large or small, which makes use of ISA100 Wireless to improve operations and/or lower costs can be nominated for this award.

Preference will be given to those applications/use cases which demonstrate leadership and innovation in their use of ISA100 Wireless technology.

How are end users nominated?

Any party involved in the application/use of ISA100 Wireless technology may nominate an end user for this award.

Parties eligible to make nominations include, but are not limited to: suppliers, EPCs, integrators, end users (nominating others or themselves).

Nominations should include a brief (2-3 paragraphs) description of the ISA100 Wireless application/use case that includes: challenges faced, solutions developed, and benefits realized. Please specifically demonstrate how ISA100 Wireless improved operations and/or lowered costs. Also please highlight leadership and/or innovation displayed in this application/use case where applicable.

Nominations should be submitted directly to the ISA100 Wireless Compliance Institute.

What does the award winner receive?

The award winner is publicly presented with a custom-engraved crystal trophy at ARC Industry Group's annual Industry Forum Orlando event. The award is presented by the Managing Director of the ISA100 Wireless Compliance Institute.

The winner receives corporate and plant exposure for their application of, and benefits received by, ISA100 Wireless technology. Exposure is earned via a free presentation slot at the Industry Forum, a global press release, and inclusion on the ISA100 Wireless Compliance Institute's website. The website attracts 40,000 unique views/mo (2017 average).

The ISA100 Wireless Compliance Institute covers all of the speaker's travel and accommodation fees related to the ARC trip. The winner also receives a free ticket to attend the ARC show for the full week.

What is required of the award winner?

The winner must be willing to present in-person on its ISA100 Wireless technology application at the Industry Forum Orlando, hosted by the ARC Industry Group each February in Orlando, FL, USA.

The winner must be willing to share relevant results and data in order to clearly demonstrate the value of their ISA100 Wireless application/use case.

Additionally, the winner must agree to the use of its name and company logo for promotion of ISA100 Wireless technology in any and all electronic and print media.

(The winner will be provided with a draft of the press release announcing the award, for review and final approval, prior to distribution).
